**MCA member companies recognized in Engineering News-Record's top 400 contractors list for 2018**

The Montana Contractors' Association (MCA) is pleased to acknowledge its Montana-based member companies Barnard Construction, Sletten Construction and Dick Anderson Construction for making the Engineering News-Record's 2018 list of the top 400 contractors in the nation.

The industry magazine undertakes the compilation annually, and companies included in the top 400 list are ranked by construction revenue for 2017.

Bozeman-based Barnard Construction ranked highest on the list at 139. Sletten Construction, based in Great Falls, ranked 297, and Dick Anderson Construction, based in Helena, landed at 353.

"Population-wise, Montana may not be particularly significant on a national scale," said Cary Hegreberg, MCA's executive director. "However, in terms of talent in the construction industry, and reach, our Montana companies are right up there with the best in the country. Inclusion in the ENR top 400 list is an excellent testament to the quality of our MCA members."

For more information about the ENR top 400 list, visit [www.enr.com](http://www.enr.com).

*The **Montana Contractors' Association**, a chapter of the Associated General Contractors of America (AGC), is a trade organization representing commercial, industrial and public works construction firms. Learn more at [www.mtagc.org](http://www.mtagc.org).*
