Project Manager/Engineer/Coordinator/Estimator

PROFILE:

Results orientated construction professional with **17 years experience** in successful bidding and construction of projects upwards of 23 million dollars in size through coordination of crews and trades, and developing positive rapport with owners, engineers, inspectors, subcontractors, and vendors while maintaining costs. Versed in project estimating, contract negotiations and execution, subcontractor and vendor purchase orders, invoicing, and project management thru completion. Proven ability to manage multiple projects simultaneously with accuracy and profitability. I'm an out of the box thinker using experience and managerial skills to complete complicated tasks.

WORK EXPERIENCE:

Fonson Company Inc. **Brighton, Michigan** **(6/2018 - Present)**

Project Manger-Estimator

Duties: Bid/Build Method. Project management, estimating/bidding and project engineering. Core focus on MDOT, County Road Commission road rehabilitation and underground utilities. Responsibilities also include project buy out/procurement, submittal preparation, subcontracts negotiation, schedule preparation, resource forecasting and inter-discipline coordination, QA/QC and technical interpretation in the field.

Anglin Civil, L.L.C. **Livonia, Michigan** **(3/2012 – 6/2018)**

Senior Project Manger

APWA 2012 Project of the Year Award- ENVIRONMENT-Less than \$1 million

APWA 2014 Project of the Year Award- HISTORICAL PRESERVATION-Less than \$5 million

Duties: Project management, project engineering and estimating. Effectively communicate between the owner, civil/structural engineer, geotechnical engineer and subcontractors. Responsibilities also included project procurement, submittal preparation, negotiation of subcontracts, schedule preparation, resource forecasting and inter-discipline coordination, overall quality control of the work and technical interpretation in the field.

Performance Superintendent- (Wayne County Metropolitan Airport) -KDTW Top 100 Airport

Duties: Snow and Ice Removal Operations Supervisor, responsibilities include on site of contracts, bidding, communication with WCAA Airport Operations, maintaining work force and equipment, coordinate the logistical operations, coordinate equipment maintenance, tracking of all employees on site from (enter to exit) through to the billing process, supervisor of security and badging, purchase and maintain communication equipment, TSA Audits, DTW Audits. Coordinate snow and ice removal operations for Airport Tenants.

Natt McDougall Company. **Tualatin, Oregon** **(2010 – 3/2012)**

Project Engineer CM-GC

Duties: Liaison between USACE, DEQ, ODFW, the project principle and technical disciplines involved in a project. Effectively communicated value engineering options between the owner, civil/structural, engineer, geotechnical engineer and subcontractors. Defined the scope of work and prepared bid packages for competitive bid on the owner's behalf. Held Public bid openings, reviewed bids and qualifications. Based recommendations not only on cost, but on qualifications and the ability to meet project schedule. Executed subcontracts and purchase orders for project procurement. Responsibilities also included schedule preparation, resource forecasting and inter-discipline coordination, overall quality control of the work and technical interpretation in the field.

Project: Port of Newport International Terminal Renovation-Cost: \$23 Million
Awards: 2011 Phoenix Award- Newport Terminal Renovations
2014 AGC National Build American Award
